

Keshav Tyagi

(813) 327-9470 | Tampa, FL | keshav54@usf.edu | linkedin.com/in/keshav--tyagi

Professional Profile

Computer Science undergraduate at the University of South Florida with hands-on experience building full-stack, AI-enabled web applications. Project work spans financial technology, real-time public safety data, LLM-assisted user workflows, REST APIs, PostgreSQL data systems, and production deployment across modern cloud platforms.

Education

B.S. Computer Science | University of South Florida - Tampa, FL

Technical Competencies

Languages	Python, TypeScript, JavaScript, C++, SQL
Frontend	Next.js, React, Tailwind CSS, ShadCN UI, Recharts, responsive UI/UX
Backend & Data	Node.js, Fastify, Express, REST APIs, PostgreSQL, Prisma ORM, Neon, Redis
AI / ML	FastAPI, Pandas, NumPy, scikit-learn, Gemini LLM, AI agents, Plaid API, forecasting, anomaly detection
DevOps	Git, GitHub Actions CI/CD, Vercel, Render, production debugging, testing

Selected Technical Projects

WealthLens - AI Financial Copilot | Full-Stack + AI Engineering 2026

Technologies: Next.js, React, TypeScript, Node.js/Fastify, PostgreSQL, Prisma, Python FastAPI, scikit-learn, Gemini LLM, Plaid API, Vercel

- Built a production-deployed AI financial copilot with REST API endpoints, Clerk authentication, Plaid bank-account connectivity, real-time spending tracking, and personalized financial insights.
- Engineered a Python FastAPI analytics service using Pandas, NumPy, and scikit-learn to forecast cash flow, score financial health, and detect subscriptions and anomalies from transaction data.
- Integrated Gemini LLM with transaction-aware context for advisor chat, automated weekly reports, and goal planning; deployed across Vercel, Render, and Neon with GitHub Actions CI/CD.

BayGuard Tampa - Disaster Intelligence Web App | Hackathon 2026

Technologies: React 19, Vite, TypeScript, Node.js/Express, Google Maps API, Gemini AI, Redis, Vercel

- Collaborated in a team of four to build a Tampa disaster intelligence app that pulls live data from NWS, NOAA, NHC, FL-511, and Tampa Electric into a real-time neighborhood risk map.
- Architected a multi-agent AI layer using Google Gemini, with specialized weather, flood, storm, and report-verification agents feeding a final synthesis layer for readable evacuation guidance and situational summaries.
- Built resident report submission with AI-assisted verification, evidence cross-referencing, SMS alerting, subscriber management, cooldown controls, and simulation modes for flood and hurricane drills.

Professional Experience

Student Assistant | USF Office of the Provost (Academic Affairs) - Tampa, FL *Jun 2026 - Present*

- Manage and triage JIRA tickets, coordinate task workflows, and collaborate with office staff to resolve administrative and technical requests efficiently.
- Use Office 365 tools including Teams, Word, and Excel to support communication, documentation, and daily office operations.

Import & Export Assistant | Family Business - Riverview, FL *2022 - 2024*

- Managed vendor pricing research, bulk inventory procurement, shipment coordination, and online inventory tracking.

Cashier & Stock Associate | Local Grocery Store - Gibsonton, FL *2023 - 2024*

- Processed high-volume transactions, restocked inventory, and maintained customer-facing areas in a fast-paced retail environment.

Community Service & Activities

Volunteer | Feeding Tampa Bay - Tampa, FL *2022 - 2023*

- Supported high-volume community food distribution through meal preparation, pantry operations, and service logistics.

JV Wrestling *Student Activity*

- Competed in tournaments and developed discipline, teamwork, and resilience through consistent training.
